

Comparison of Issuances by Project Type between 2024 and 2025

Credits Issued in 2024

258,457,052

Verra, Gold Standard,
ACR, CAR and puro.earth

Issued from
January 1st - December 31st, 2024

Credit Issuance Down

↓ -8.22%

-21,253,501 credits issued
between 2024 and 2025

Credits Issued in 2025

237,203,551

Verra, Gold Standard,
ACR, CAR and puro.earth

Issued from
January 1st - December 31st, 2025

Project Types with Largest Issuance Increase

Biomass

240.75%

Increase from
2024 to 2025

Soil Enrichment

231.21%

Increase from
2024 to 2025

Transportation

231.18%

Increase from
2024 to 2025

Carbonated Materials

183.43%

Increase from
2024 to 2025

Comparison of Issuances by Project Type between 2024 and 2025 Listed By Percent Change

Registries: Verra, Gold Standard, ACR, CAR and puro.earth*

*Based on registry-provided project types. Years are comprised of issuance dates January 1 to December 31
